## A. Brokerage Account Options

### INTRODUCTION

Welcome to our brokerage services! We will explain the different account options we offer, designed to suit various investment needs.

#### 1: RETIREMENT ACCOUNT

This account is specifically designed to help you save for your retirement over a minimum period of one year. It offers several benefits to ensure a secure financial future.

With our retirement account, you can take advantage of tax advantages and potential growth over time. By making regular contributions and investing in a diversified portfolio, you'll be on the right track to building a comfortable retirement nest egg.

#### 2: PERSONAL ACCOUNT

Next, we have the personal account, which offers individual ownership and greater flexibility.

With a personal account, you have access to a wide range of trading options, allowing you to invest in REITs, stocks, bonds, mutual funds, and more. You can actively manage your investments, taking advantage of market opportunities as they arise.

Additionally, a personal account provides you with the freedom to withdraw your profits based on the investment profits cycle. This means you can access your gains when it aligns with your financial goals or personal circumstances.

#### 3: JOINT ACCOUNT

Lastly, we offer a joint account for those with common investment goals, such as couples, family or business partners.

A joint account allows multiple users to pool their resources and invest together. It fosters collaboration, combining individual expertise and capital to pursue shared financial objectives.

This account offers the flexibility to allocate funds according to the joint account holders' preferences and investment strategies. It's a great option

for those who want to leverage collective knowledge and resources.

## B. Understanding the Stark Wallet: Our Innovative Investment Tool

### INTRODUCTION

We're excited to introduce you to the Stark Wallet, an innovative investment tool designed to optimise your profits and assist you with tax and company maintenance charges.

### STARK WALLET OVERVIEW

The Stark Wallet is a unique feature within your dashboard that helps you manage your investments more effectively. It operates on the principle of saving a portion of your profits to cover taxes and company maintenance charges.

By utilising the Stark Wallet, you can ensure that a portion of your investment gains is set aside to fulfil your financial obligations in a seamless and convenient manner.

Here's how it works. Whenever you make a profit and decide to withdraw at least a minimum of \$1,000 the Stark Wallet automatically saves 40% of that withdrawal amount.

Let's say you withdraw \$1,000 in profits from your investment. The Stark Wallet will set aside \$400 (40% of \$1,000) to cover your tax and company maintenance charges.

The saved funds in the Stark Wallet are released after a period of one year. This one-year release cycle gives you ample time to accumulate sufficient funds to meet your tax and company maintenance obligations effectively.

### BENEFITS OF THE STARK WALLET

The Stark Wallet offers several benefits that make it a valuable tool in your investment journey.

Firstly, it ensures that you are prepared to cover your tax and company

maintenance charges by saving a portion of your profits automatically. Secondly, it helps you plan your finances better by spreading out your financial obligations over a period of time, thus reducing any potential financial burden.

Finally, the Stark Wallet streamlines your investment process, eliminating the need for separate manual calculations and savings.

## C. Introducing Our P2P Service: Connecting You to Trusted Merchants

### INTRODUCTION

Welcome to our platform! Today, we're excited to introduce you to our P2P (peer-to-peer) service, which connects you with trusted and verifiable merchants. With this service, you can negotiate means of payment in exchange for our EXC token, all within our secure platform.

### P2P SERVICE OVERVIEW

Our P2P service is designed to facilitate seamless transactions between you and our trusted merchants. We have carefully selected these merchants to ensure the highest level of reliability and credibility.

By leveraging this service, you gain access to a wide range of goods and services offered by our platform, making your transactions efficient and trustworthy.

### NEGOTIATING MEANS OF PAYMENT

One of the key features of our P2P service is the ability to negotiate means of payment with the merchants using our platform in exchange to EXC token.

Let's say you want to purchase a product or service from our platform. Instead of traditional payment methods, you have the flexibility to discuss and agree upon an alternative means of payment in exchange to EXC token which can be used to purchase product and services within our community.

## TRUSTED AND VERIFIABLE MERCHANTS

We understand the importance of trust and reliability when it comes to engaging in transactions. That's why we have gone the extra mile to ensure that our merchants are trusted and verifiable.

Each merchant undergoes a rigorous verification process to ensure their legitimacy and credibility. They are carefully vetted by our team to provide you with a safe and secure transaction environment.

## SECURE PLATFORM

Our platform is built with robust security measures to protect your transactions and personal information.

We employ the latest encryption technologies and follow best practices to safeguard your data, providing you with peace of mind throughout your P2P transactions.

## D. Becoming an Affiliate Marketer and Our Convenient Deposit Options

### INTRODUCTION

We're thrilled to share with you two exciting features. First, we'll explain how you can become an affiliate marketer simply by signing on with your social media links. And secondly, we'll dive into the convenient deposit options available on our platform, including cryptocurrency, wire transfer, and P2P.

### BECOMING AN AFFILIATE MARKETER

Are you looking to monetise your social media presence? Our affiliate marketing program provides you with an opportunity to earn income by promoting our platform using your social media links.

It's as simple as signing on with your social media accounts and sharing unique referral links or promotional content to your followers. When someone joins our platform or makes a transaction through your link, you earn a commission.

Whether you're an influencer, blogger, or simply have an engaged social media following, our affiliate program enables you to turn your online presence into a profitable venture.

### CONVENIENT DEPOSIT OPTIONS

We understand the importance of providing diverse and convenient deposit options for our users. That's why we offer multiple ways to fund your account.

Firstly, we support cryptocurrency deposits. You can securely deposit funds using popular cryptocurrencies such as Bitcoin, Ethereum, and more. This option provides fast transactions and increased privacy.

Secondly, we offer the option of depositing funds through wire transfers. This traditional banking method allows you to transfer funds directly from your bank account to your platform account. It's a reliable and widely accepted option.

Lastly, we have our P2P deposit option. With P2P, you can conveniently transfer funds from one user to another within our platform. This provides a quick and seamless way to deposit funds for your investments.
